Do not allow Mitch to have a Senate majority. He has no interest in representing Americans.

It's the reality that weasel Mitt Romney will be taking control behind the scenes, using his rich corporate donors to lead the RINO charge.

Wish that were true. Watch them come out of the woodwork if they win the Senate.

Because of covid. Or because they fear a million patriots showing up to heckle Joe's handful of supporters would reveal the fraud...

1 ▼ That'll get the glows going like crazy. They gonna build a fucking cuck cage around DC like VA did for the January gun rally. I get what you're saying and I understand no where did you mention violence, but a liberal seeing this would twist it like a rollercoaster. Outside of that, here, here I concur!

-2 ▼ If you're serious, which I doubt you are (you're more likely a glowie or larper) you have to realize this has no chance of working. Even if it worked it would be evil.

You have no plan or even a goal as to how it would turn out. It would just amount to you shooting random people and starting a civil war that destroyed the country one way or another. That's ironically exactly what our enemies, like China, want.

The Democrats are not the Soviets. They are a trashy, degenerate, evil and dangerous party that doesn't believe in legitimate law or individual rights. But it's not even close to worth fighting a civil war when we can still win elections peacefully. You're overestimating how much fraud they got away with; and underestimating how much we can do to prevent them from cheating in the future. You're also overestimating the power Democrats have (unless they take the senate), the constitution stood up to way smarter tyrants than these clowns.

2 ▼ It has no chance of working. Tunnels, helos, virtual meetings, they'll find a way.

That said: It is not evil, they've proven elections are a sham, and they will continue down this route until they feel visceral fear.

-6 ▼ The truth is elections have always been somewhat of a scam. It was particularly terrible this time, but it's nothing new.

As the saying goes, it's not about who votes but who counts the votes. It's not about voting every 4 years, the real battles in so-called "democracies" have long been decided by lawyers and political activists (mostly donors).

We could have won this election and we didn't. That's the bottom line. Our fundraising wasn't good enough. Or legal activism to stop these ridiculous election laws wasn't good enough.

They cheated, but so what? *We let them*. Nobody took this election seriously enough. If we did we'd of out-fundraised Biden 5-1 and not the other way around. Now is not the time to overcompensate and get violent.

1 ▼ What, apart from violence, will prevent them from cheating time and time again? You admit it's getting

to the grift and bribe our way into a honest government. Might as well fuck your way into virginity.

▼ STEP1: pedes/patriots/conservatives/real-libertarians pressure the republicians in swing states to (1) pass voter ID and (2) repeal vote by mail.

STEP 2: These small-fry republicans do so, because it's the only way they keep their jobs in 2022. Republicans control 7/8 swing states. *State law* is what controls election security.

STEP 3: Trump wins in historic landslide in secured 2024 election after (1) voter fraud is reduced and (2) the entire country sees what a laughable and dangerous shitshow a ~~Biden~~ Harris administration is and compares it to Trump's remarkable record.

It was worse this time because of mail in ballots. The electronic voting stuff is unsubstantiated. It's definitely suspicious but you can't be certain it's true based on the evidence.

And grass-roots fundraising isn't "bribery." It's giving money to trump so he can spend it on ads telling the truth about himself and his opponents. Problem is many people expected to live in the freest nation in history but didn't want to pay \$5 to GEOTUS for the privilege. If you donated/volunteered nothing to Trump's campaign and are complaining now you are a joke.

▼ If you think the founding fathers would have destroyed their own nation over this you're wrong.

Trump can win in 2024. You're being misled by charlatans who purposely overestimate the power of the Dems, so they can stop Republicans and Trump from winning easily in the future.

▼ none of your arguments make logical sense Grandma.

1. Removing Congress and sending them home is not destroying a nation.
2. Election fraud is rampant and allowing Biden in would be immoral.

But I don't care what you think until you start making Constitutional and Moral Sense.

▼ How are you going to "remove congress"? Violently? Yep, that would definitely destroy the r y.

If you wanted to stop election fraud you needed to be proactive about it. We could have sto them from cheating BEFORE the election and didn't. Lashing out and being violent isn't goi stop Biden.

They stole the 2020 election. It would take a miracle to stop them at this point. It would take swamp

because it's the truth. I don't want it to be true but it is.
